

# LOVE LAUGH DRINK

Couples, get ready to laugh, drink, and reconnect. This is a guided experience through the past, present, and future of your relationship. You'll talk about the funny, romantic, and ridiculous moments that will make you fall in love all over again.

## SETUP

Set each category into its own pile. Draw 5 from the first 3 categories: **LOOKING BACK**, **LOOKING IN**, and **LOOKING AHEAD**.

Don't draw from the **LOOKING HOT** category yet. That's for dessert.

## HOW TO PLAY

Flip over the first **LOOKING BACK** card and read it out loud. You'll both take turns answering and doing what the card says. Both of you must answer each card before you can move on to the next category.

PLAY THE CATEGORIES IN THIS ORDER:

**LOOKING BACK** This category is about how well your memories and ideas of each other match up. You'll look back on your relationship as a whole and use what you know about your partner to answer.

**LOOKING IN** These cards explore your current thoughts and feelings about your relationship.

**LOOKING AHEAD** Here you will talk and think about the future—in big and small ways.

For cards that mention giving out a drink, you can either choose to drink yourself or give it to your partner. If you're playing with other couples, you can give it out to anyone in the group!

When you're done answering the questions from those 3 categories, you can either stop, draw another round, or move on to the final category... **LOOKING HOT**.

**LOOKING HOT** This category is all physical action cards. Each of these is a spicy act meant to deepen your connection. Do these cards in any order that feels right to you both.

Draw 3 cards from this category to start. **NOTE:** If you drew a card that you're really not into, or doesn't make sense for where you are, feel free to discard and draw a new one.

**GRAND FINALE** Now, you'll see that one of the **LOOKING HOT** cards looks a bit different from the others. Place this card to the side as your **GRAND FINALE**.

Play this card once you've completed all your **HOT** cards and you're ready for the grand finale of the night. We hope you close off your night with a bang!

**PLAYING WITH OTHER COUPLES** If you're playing with other couples, everything is pretty much the same! Working in pairs as couples, you'll still take turns answering the same amount of questions and drinking accordingly. The only difference is that you'll only use the first 3 categories—AKA, you don't draw cards from the **LOOKING HOT** category. (Unless you're feeling very brave, in which case—go for it. We don't judge.)

Everyone in the group should answer the same set of questions. Each couple will just answer based on their own relationship. Enjoy!

Want to keep the conversation going? Check out **Let's Get Deep: Questions for Couples** It's the viral relationship game that takes date night with your partner to the next level.
