

Inside

COWS IN SPACE™

“Greetings! This is your leader. You are about to set off on an incredibly important alien mission—to *bring me cows*”.

As you hover over the farm, your goal is to collect as many magnetic cows as humanly possible—no pun intended.

SETUP

Place all of the cow pieces onto the field, right side up. Your targets look like this:

Before playing, agree on which side of the table to drop your cows when you play.

When you're ready, press the **RED BARN** to announce your arrival and get the cows running around the farm.

Finally, put on a UFO headband so the UFO is in front of you.

HOW TO PLAY

Using your UFO headband, bob to collect as many magnetic cows as possible. You want to collect more than your opponent.

When you pick up a cow, you must deliver it to that table space outside of the farm you chose earlier. The outer space, if you will. Otherwise, it won't count as a point for you. And I, your leader, will be very disappointed. **No picking up cows with your hands!** Only use your hands to drop them off in your designated collection area.

Cow tipping happens. If too many cows get tipped over while you're playing, just agree with your opponent to pause the game and reset the cows on the field right-side up. Then continue as you were—abducting cows the **right** way.

HOW TO WIN

The alien—sorry, player—with the most cows at the end wins! You're a star.

“Now, what planet should we steal from NEXT?”
