CREATURE CRASH

WELCOME TO THE JUNGLE!

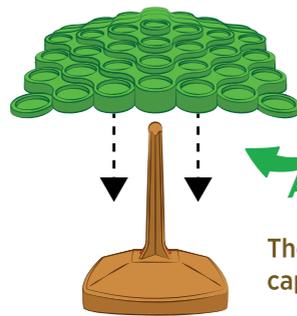

CREATURE CRASH is about balancing those tiny, adorable capybaras until they come toppling down. Your goal? To make sure it doesn't crash on your turn. The player who topples it first loses.

SETUP

See that balance board?
The one that looks like this?

Go ahead and, well, balance it on the pillar base. Make sure the center of the tree balances on the tip of the base post.

Now that it's put together, we'll call this **THE TREE**.

Then, place the capybaras in a shared pile so everyone playing can reach them.

The player who can balance a capybara on their fingertip goes first.

HOW TO PLAY

Whoever's going first rolls the die. Whatever you roll indicates how many capybaras you need to place on the tree. Go ahead and stack the required number of capybaras on the tree without toppling it over.

JUST ONE THING: You can only use **one hand**, so make sure you stack carefully. The more crowded the tree gets, the more unstable it becomes!

Once you've placed your capybaras, the player to your left rolls the die and takes their turn.

HOW TO WIN

If any of those adorable capybaras fall during your turn, you lose! And everyone else wins.

Yippee!

Outside

Relatable.
