

Let's Get Deep®

SETUP:
You tell them almost everything, but do you actually know them? Time to find out. Split up the cards into the 4 designated decks: "Ice Breaker," "Deep," "Deeper," and "Activity."

HOW TO PLAY:
The person who texted their partner most recently is the first to draw and read a card. They can pick whatever category they want, but they'll ask that question to *their partner*.

Players take turns reading and answering the questions as well as doing the activities. The Activity Cards will specify who does what. Use these cards to stimulate and create fun convos and hilarious moments.

Play until you know enough about each other that you could probably start answering questions for other players. Just remember to have fun until that happens!
